PROJECTS

Empowering Women's Safety Through Advanced IVR and Police Portal Integration

10/2023 - Present Amravati, Maharashtra

Contributed to the empowerment of women's safety by designing and implementing user-friendly interfaces for an advanced IVR system.

- The system will allow women to quickly report incidents of harassment or violence using their phones, and the reports will be automatically logged into a centralized database accessible to law enforcement.

Portfolio Website

12/2023 - 01/2024

github.com/sarang1221

An engaging portfolio website showcasing my skills, projects, and experience.

- The successful outcome of a portfolio website is securing new opportunities, whether it's landing freelance projects, gaining employment offers, or attracting potential clients.
